## Profile

I am designer and front end developer with a background in architecture, and a passion to create clean and functional web designs. I'm now doing web design as a freelance, looking for full time or contractual jobs. I have working knowledge building responsive web sites using the latest techniques in HTML5/CSS3 and jQuery, and continue to take professional courses to keep current with new technologies. I can create UI interfaces using Photoshop, Mock flow and Balsamic Mockups, and am used to work in a team environment with developers and architects using git and other tool sets.

## Freelancer Experience **Diapers Savers | [diapersavers.com](http://diapersavers.com) | November 2014**

Front End Development utilizing HTML5, CSS3, and jQuery built on Foundation framework. Logo Design and Images created in Photoshop.

## **Patina Studio | [patinapal.com](http://patinapal.com) | September - December 2014**

Front End Development utilizing HTML5, CSS3, and jQuery built on Bootstrap framework.

## **TCOhealth | [tcohealth.net](http://tcohealth.net) | April - June 2014**

Design and Front End development of landing page and mockup application. Built with HTML5/CSS3 via Sass. The user interface is enhanced with the use of jQuery plug-ins and graphs.

## Personal Project **[booksprice.com](http://booksprice.com) | September 2004 - Present**

Design and maintenance of the website and it's mobile application. The new design of [booksprice.com](http://booksprice.com), uses responsive techniques and is written in HTML5/CSS3 & jQuery.
